OTHER IIPM JOURNALS

Please enter my subscription for The India Economy Review

The IIPM Think Tank's publications address the full range of public policy and managerial issues, wherein the emphasis is on addressing the new economic and managerial challenges. The IER journal is priced notably below both the discipline's standard price and the rates characteristic of large commercial publishers in India and practically all over the world. The idea is to reach out to a general-interest audience, practitioners, and other non-academics.
